

# Monitoring Women, Peace and Security Agenda around the World

Nandar Min Tun

2023-05-09

- The graphs below display the scores for the WPS Index 2021.
- The WPS Index measures women's well-being and empowerment in countries around the world.
- The scores are based on a range of indicators, including legal frameworks, security, and access to healthcare and education.
- Higher scores indicate better performance on these indicators.
- The graphs below display the scores for the WPS Index 2021.
- The WPS Index measures women's well-being and empowerment in countries around the world.
